

**Exhibit 7—Modification to Identify Additional Political Entity Joining a Retirement System—Separate Referenda Held in Classification Designated by the State as Separate Deemed Retirement Systems**

The purpose of this Identification Modification is to identify additional political entities joining a retirement system where a State has separated a retirement system into deemed retirement systems as authorized by Section 218(d)(6) of the Social Security Act. At the time of the inclusion under the State's agreement of the deemed retirement system coverage group, the State indicated intent to include future participating entities within a designated class and the deemed retirement system was clearly identified with respect to its composition.

The introductory paragraph identifies the name of the retirement system and the previous modification in which the retirement system coverage group was included in the agreement. The modification lists the names of the political entities which first had employees in positions covered by the retirement system after the modification extending coverage to the retirement system coverage group was executed. The parenthetical remark after the name of each of the political subdivisions is for reporting purposes.

Since coverage in this situation is automatic upon the entity's participation in the retirement system, the designation of a date pursuant to Section 218(e)(2) of the Act is not applicable.
