<b>Your Earnings Record</b> .....	3
<b>Some Facts About Social Security</b> .....	4
<b>If You Need More Information</b> .....	4
<b>To Request This Statement In Spanish</b> .....	4
<i>(Para Solicitar Una Declaración en Español)</i>	

## What Social Security Means To You

This *Social Security Statement* will help you understand what Social Security means to you and your family. This *Statement* can help you better plan for your financial future. It gives you estimates of your Social Security benefits under current law. Each year, we will send you an updated *Statement* including your latest reported earnings.

Be sure to read this *Statement* carefully. If you think there may be a mistake, please let us know. That's important because your benefits will be based on our record of your lifetime earnings. We recommend you keep a copy of this *Statement* with your financial records.

### Social Security is for people of all ages...

It can help you whether you're young or old, male or female, single or with a family. It's there for you when you retire, but it's more than a retirement program. Social Security also can provide benefits if you become disabled and help support your family when you die.

### Work to build a secure future...

Social Security is the largest source of income for most elderly Americans today. It is very important to remember that Social Security was never intended to be your only source of income when you retire. Social Security can't do it all. You also will need other savings, investments, pensions or retirement accounts to make sure you have enough money to live comfortably when you retire.

### About Social Security's future...

Social Security is a compact between generations. For more than 60 years, America has kept the promise of security for its workers and their families. But now, the Social Security system is facing serious future financial problems, and action is needed soon to make sure that the system is sound when today's younger workers are ready for retirement.

Today there are almost 36 million Americans age 65 or older. Their Social Security retirement benefits are funded by today's workers and their employers who jointly pay Social Security taxes — just as the money they paid into Social Security was used to pay benefits to those who retired before them. Unless action is taken soon to strengthen Social Security, in just 11 years we will begin paying more in benefits than we collect in taxes. Without changes, by 2040 the Social Security Trust Fund will be exhausted.\* By then, the number of Americans 65 or older is expected to have doubled. There won't be enough younger people working to pay all of the benefits owed to those who are retiring. At that point, there will be enough money to pay only about 74 cents for each dollar of scheduled benefits. We will need to resolve these issues soon to make sure Social Security continues to provide a foundation of protection for future generations as it has done in the past.

### Social Security on the Net...

Visit [www.socialsecurity.gov](http://www.socialsecurity.gov) on the Internet to learn more about Social Security. You can read our publications, use the *Social Security Benefit Calculators* to calculate future benefits, apply for retirement, spouse's or disability benefits, or subscribe to *eNews* for up-to-date information about Social Security.

Jo Anne B. Barnhart  
Commissioner

\* These estimates of the future financial status of the Social Security program were produced by the actuaries at the Social Security Administration based on the intermediate assumptions from the Social Security Trustees' Annual Report to the Congress.
